

GHIDINI ILLUMINAZIONE WILL BE TAKING PART IN LUMIVILLE 2008

**Lyons Trade Fair, 27 - 29 May: a chance not to be missed to
admire all the latest products of the Brescia company**

Ghidini Illuminazione will be taking part in LumiVille, the industry trade fair to be staged in Lyons between 27 - 29 May 2008. A not-to-be-missed chance to admire all the latest products presented by the Brescia company on its stand (Hall 66 – Stand 96).

“After the Frankfurt Fair, it is now the turn of the Lyons event. We believe it is crucial to give the company maximum exposure at international level” says Roberto Castellotti, Sales Manager of Ghidini Illuminazione, who will be taking part in the event and will be pleased to illustrate all the very latest company products, as well as its market strategies in Italy and abroad.

New products available:

Bivio

Wall-effect projector in die-cast aluminium, IP 65. Equipped with biconvex, tempered glass lenses and flat glass, these fixtures are suitable for effect lighting medium sized structures and private homes.

Confine Asimmetrico

This new fixture rounds out the confine range with new asymmetrical optics for 8 w,

14 w, 21 w, and 28 w t5 fluorescent lamps. It is available with an AISI 316 stainless steel frame and asymmetrical optics for wide, homogeneous diffusion that creates a wall wash effect.

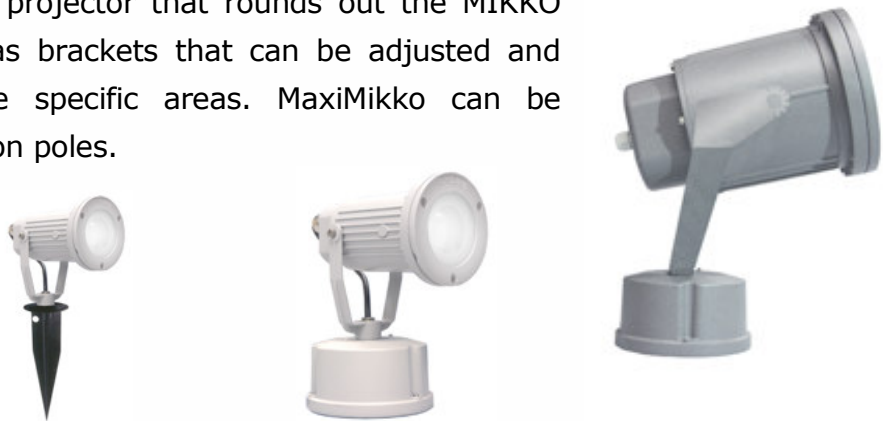

Verso

Comprehensive, renewed range of recessed wall lamps made from die-cast aluminium with downwards-directed light emission. These fixtures are designed for lighting walkways, drives, and stairways without blinding.

MaxiMikko

Large sized exterior projector that rounds out the MIKKO product range. It has brackets that can be adjusted and turned to illuminate specific areas. MaxiMikko can be installed on walls or on poles.

Polmargin

Extruded aluminium bollard with die-cast EN AB 47100 highly oxidation-resistant aluminium body. The diffuser is made from highly shock-resistant, tempered, transparent glass.

Occhio Wall

Rich, renewed range of recessed wall lamps made from die-cast aluminium with downward-directed light emission. These fixtures are designed for lighting walkways, drives, and stairways without blinding.

Carrera Asimmetrico

Drive-over recessed light fixture for exteriors with new asymmetrical optics. Carrera Asimmetrico is supplied with a stainless steel frame and iron outer casing that has undergone cataphoresis treatment

GHIDINI ILLUMINAZIONE is an accomplished trade-mark in the outdoor lighting industry, with a consolidated know-how in the use of production techniques for processing aluminium and lighting technology. Founded in Lumezzane (Brescia) in 1978 and still entirely run by the founding family, the company specialised in providing outdoor solutions with a keen eye to details and a focus on design.

Ghidini Illuminazione always strives to achieve topmost results in terms of light yield and enhancing outdoor aesthetic look. Our key line of products includes recessed products, appliquéés, bollards, spotlights and urban design solutions. Ghidini Illuminazione was certified both UNI EN ISO 9002 and UNI EN Iso 14001.
